Other non-technical courses
- German course at Goethe Institute, Bucharest – 2005
- German course at Goethe Institute, Berlin – 2008
- Photography course, Bucharest – 2010
- Photography course at Dalles University, 2010
- German course at Ibsen Edu Centre Bucharest – 2012
- German course at INLINGUA Frankfurt – 2014

Interested for

Angular ● .NET Core ● Unit testing and TDD ● DDD
Patterns and Practices
Artificial Intelligence ● Raspberry Pi and home automatization
Elastic Search ● Docker & Kubernetes

Other projects

PDI Hackathon (2020) Won the Most Innovative Project award for introducing chat bot (including voice commands) on top of current web application (used RiveScript).
OMNIASIG Romania (2008) Web application for managing the documents (policies, questionnaires) involved in assurance process for customers of OMNIASIG.
JHC, Muerzzuschlag, Austria (2004) Develop company site (www.jhc.at) using ASP.NET 1.0 and MS Access.
Casa 2100 – desktop application (C#, XML, Microsoft Speech Recognition, X-10 devices) used to command various appliances in a house using voice.
ActiveX object for detecting the Bluetooth devices discovered by the client computer.
Internet Explorer toolbar for MMOG game www.triburile.net (www.die-staemme.de) able to react to several events in game and play an alarm.
Learn German – Web application using .NET Core, Angular 2+, Angular Material 2, webpack, nodejs and npm to learn German based on flash-card technique – work in progress.
Learn Piano – WPF application for learning musical notes. The application shows a score with a random note then reads the pressed key from a Yamaha EZ-200 keyboard connected on computer (USB – MIDI convertor).
Expression Editor – web application (jQuery, jQuery UI) used for visually building of logical expressions using drag-and-drop.
